NOTES:

- The import file is a comma-delimited text file.
- Each field has a fixed length, except the name fields.
- The name fields are truncated so there are no spaces before or after the comma.
- If the middle initial is not present, the field is still comma-delimited to account for the space.
- Example: CAFIMP,030902041,003018,19941010,LOPEZ,DALTON,L,00
