TxEIS Student - FitnessGram 10 Export

Column Name	Type of Entry/Max Length	Valid Values	Description
Instructor Zip	Alphanumeric/20		Blank
Instructor is Active?	Alphanumeric/1	Y, N	Default is Y. You can change it within the application or file.

*Required field

Notes:

- Staff data is taken from Human Resources > Maintenance > Staff Demo. If the district does not use TxEIS Business, columns for staff information are blank.
- The extract file name is FG_+10_+Extract_+SchoolYear+_+CampusID+.csv (e.g. FG_10_Extract_2014_001.csv). If the district is submitting a district-wide FitnessGram 10 file, copy each campus extract into one file, and remove the campus ID from the name (e.g., FG_10_Extract_2014.csv). Save the exported document as a .csv file.
- Do not use commas in the data fields; commas will cause the import to fail.
- Do not enter blank spaces in fields that will be empty or insert blank rows into the file.
- If there are commas in an email field, the email field will be blank when it is exported.
